INTRODUCTION

- Focused on developing and optimizing paid advertising strategies across multiple platforms, including social media and search engines
- Highlights key findings relevant to 3OC & outlines a comprehensive approach to leverage these insights, aligning with the brand's overarching goals and objectives.

Objective:

- Leverage New Signups
- Increasing Brand Awareness & Traffic
- Increasing Active Users

KEY FINDINGS

First Time Advertising

With no prior marketing experience, 3oC lacks historical data, extending the timeline needed to analyze user behaviour and market expectations, and delaying informed decision-making.

Absence of Tracking Events and Analytics

Analysis using 'Google Tag Assistant Legacy' and 'Meta Pixel Helper' confirms the absence of tracking mechanisms on the website, resulting in missed opportunities to retarget potential users and create lookalike audiences for future campaigns.

New to Market

New concept in the market, requiring advertising channels to conduct iterative analyses to determine what strategies are effective and why.

Limited Content / Information

The website's limited content reduces its ability to create an engaging user journey, which can negatively impact the performance of paid advertising by lowering conversion rates and increasing bounce rates.

PLATFORMS AND CAMPAIGN GOAL

Google Ads & DV360

Objective

Google Ads

Google DV360

Pre-Launch	Build awareness and generate excitement	• Search Ads: Target intent-based keywords to generate early interest. • YouTube Ads: Teaser campaigns to create buzz. • Display Ads: Showcase pre-registration or waitlist offers.	• Programmatic Display: Run teaser campaigns across premium inventory to build awareness.
	Launch	• Search Ads: Capture high-intent searches related to the product. • Performance Max: Automatically optimize campaigns to drive sign-ups.	• Video Ads: Use connected TV and in-stream video to demonstrate product use. • Native Ads: Seamlessly promote sign-ups within relevant content.
	Post-Launch	• Remarketing: Target users who visited the site but didn't sign up. • App Campaigns: Encourage app downloads/usage (if applicable).	• Programmatic Retargeting: Re-engage users with customized messaging. • Cross-Channel Attribution: Measure and optimize for user retention across channels.

PLATFORM (USERS IN MILLION)

- Google leads in scale and reach, making it a critical platform for broad-based digital campaigns.
- Facebook, Instagram, and YouTube together dominate the social media landscape, providing unique opportunities for targeted and diverse content formats.
- TikTok's rapid growth signals an evolving trend in how users consume content, focusing on creativity and brevity.

RECOMMENDATION

Trackers

- Implement tracking mechanisms like pixels (e.g., FB Pixel, GTM) to monitor user interactions and collect data for effective campaign performance measurement.
- Ensure tracking is integrated seamlessly across all platforms mentioned in the previous slide (Google, Facebook, Instagram, YouTube, TikTok).

Segmentation

- Segment the Ads in pre-launch, launch, and post-launch
- Segment the audience based on demographics, behaviour, and preferences to deliver personalized content.
- Leverage data from the tracking tools to create detailed audience personas for better targeting and engagement.

Creating Ads

- Design visually appealing and platform-specific ad creatives tailored to the preferences of the segmented audience.
- Focus on call-to-action (CTA) elements encouraging sign-ups and usage of the product.

A/B Testing and Analysis

- Conduct A/B testing for different ad formats, messaging, and CTAs to identify what resonates best with the audience.
- Use insights from analytics to refine campaigns and optimize for better results.
